Would you like to offer any suggestions for this T.A. concerning strengths or areas for improvement?

- be more coordinated with the teacher in terms of material, grade evenly with other TAs
- Stop being so nervous Taylor! I know it's your first time as a TA but we were all fine with your style and the way you explained things. I appreciate that you were always helpful and very accessible to students.
- Nice but struggled to answer some of the questions students had
- He is good and always willing to help. He can summarize the key concepts before each exam to help us to prepare for it.
- Maybe be a little more involved in lab. If you could explain or clarify some of the more difficult questions before hand, rather than when a lot of students are asking about it would be more helpful.
- I would just suggest knowing that days lab material a little better so that you can answer all of our questions.
- Taylor was friendly and helpful. I felt comfortable going to him with questions during lab. To give criticism for improvement, I would recommend that he be able to explain concepts from the labs to the class more clearly. Some of his explanations were a little confusing. Overall, he was a great T.A.
- I thought he was awesome just maybe have a little better understanding of the material we are learning.
- Come with more enthusiasm. If you act like you know what you're talking about, students will respond better
- I think Taylor should just keep it rolling and it will come easier to him as he does it more.
- Gain more experience with the material.

Would you like to offer any suggestions for this T.A. concerning strengths or areas for improvement?

- Revision sessions of concepts at beginning of labs.
- Great job!
- He was incredibly helpful and created a great learning environment. I am debating switch into the 9am course so I can have him for lab again. Best TA experience I have ever had in my life.
- I really liked Taylor and he was a great TA, I just felt overall of all the TA's in the review session the TAs didn't really seem they knew the material 100%
- A bit too shy
- Taylor has been one of my favorite TA's here at DU. He is very knowledgeable about the course material and makes sure that all students understand and grasp it. He is always available to answer questions and always returned graded material promptly. I would highly recommend him to anyone looking at taking this course in the future.
- No, I think Taylor did a great job! He went above and beyond to help us when we were confused - always responded to emails promptly and with a positive attitude. No suggestions, just keep doing what you're doing!
- Great TA!
- Taylor is the best TA ever. Could be a tiny bit more prepared to answer questions/do the lab but overall he's really great.
- Perhaps be more efficient helping people because there were often times 6 people would have questions to ask and it would take awhile to get around to everyone.
- Include more comments when editing the lab. Like minus points on this problem because of xyz
- Thank you very much for your help, appreciated
- Always available and got our work back to us on time every week!
- Nope. Great at getting work back fast and very helpful! Best TA!

Would you like to offer any suggestions for this T.A. concerning strengths or areas for improvement?

- Great T.A.; very enthusiastic and concerned about everyone's understanding of the material. Always willing to help. Fantastic.
- Taylor was awesome with answer any questions I had (as I had a ton of them). He was super helpful and I am looking forward to having him as a TA next quarter. Only suggestion I have is if we get marked wrong on an answer, to write down why we got it wrong.
- Taylor did a great job.
- Very friendly and open to questions, takes a personal interest in his students and is very candid
- I had Taylor both this quarter and last and noticed a great improvement in his teaching. I had no complaints about him last quarter, but I noticed this quarter he seemed to be much more comfortable in a teaching role and expressed more enthusiasm. His answers to my questions this quarter were much more thorough and helped me understand the conclusion I came to. Overall, great review!
- Excellent T.A. and it is apparent that he is enthusiastic and well prepared to run this course
- Taylor is the best TA ever. Very helpful.
- I love Taylor
- Taylor, I really enjoyed working with you this quarter. You seem very interested in what you do and that makes it easier to learn from you. You are very approachable and helpful.
- Keep up the great work. Very approachable and has good knowledge of the material .

- He did awesome. I'm excited to be in his lab next quarter.
- Taylor was one of the best TAs I've ever had! If the timing worked out I would have chosen his lab again simply to have him as my TA!
- Just keep the way you are. You are awesome
- he is so nice and helpful
- I was really comfortable going to Taylor for help. He was really willing to help me and answer any questions I had. He was very flexible with meeting times as well as efficient and prompt when responding to emails.
- You is the best. Fo real
- Taylor is a great TA and is always more than happy to help students in anyway that he can. He is very knowledgeable about the course material and does everything he can to ensure that students understand and grasp material.
- Taylor! You are awesome! Have loved having you as my TA the past two quarters and am looking forward to having you again next quarter!
- Taylor was awesome!
- Awesome TA, perhaps explain the subject material a little more before the lab
- Taylor is a great TA. He was always helpful and was willing to answer all questions. To improve, he should more clearly explain the grading criteria.

Would you like to offer any suggestions for this T.A. concerning strengths or areas for improvement?

- taylor is the best TA ever
- None that I can think of.
- Nope. Taylor was very helpful and laid back and great at answering questions, which led to stress-free, interesting labs.
- Keep doing what you are doing. I think you did a great job.
- Taylor was an awesome TA!
- None. He is so nice and helpful.
- I just want to say that Taylor was always incredibly friendly, helpful, full of knowledge, and passionate. He was the best TA I have had at DU. He would hold review sessions for us before his 4-hour class, just so that we could benefit from them. Taylor is amazing!
- My favorite T.A. I have had at DU. Knows a lot about the material and was always extremely helpful during labs and class.
- More take home assignments. Some of the hands on gets boring and tedious. Labs are more for getting the grade then understanding the material.

<ul style="list-style-type: none"> Great Job! You created an environment that allowed everyone to feel comfortable to ask questions and just plain not get something and you did a great job in answering our question in a way that was easy to understand. Taylor is awesome!! I would take him as my T.A. again in a heartbeat. GREAT TA!!!! Good job being honest when you didn't know an answer. That is much appreciated rather than trying to b.s. an answer You're personable, funny, and got to know us really quickly. I enjoyed taking lab with you! I would take a class with you again. Taylor is a great T.A. He's really helpful and very patient, especially for people like myself who have a hard time with Geography.

- Great job! You are a superb T.A.
- Perhaps the labs could be a little more engaging and less "fill in the blank." Additionally, I would have liked to have applied more of the knowledge learned in lecture in the lab. Often I was a little confused at the relevance of the lab assignment to the lecture.
- STAY SUPER CHILL TAYLOR!
- I loved my T.A., Taylor! He was the best!!
